

## Laminar/Overflow Flow Measurement

eyc-tech **Ultra-Low** Air flow Transmitter

### Laminar Flow

### Over Flow

#### ■ Ultra-Low Air flow Measurement

eyc-tech air flow transmitter can measure as low as **0.1 m/s**, and the FDM06L featuring bi-directional measurement.

#### ■ High Accuracy Specifications

Based on thermal sensing, with accuracy up to **±1.0%**, ideal for high-demand laminar and overflow applications.

#### ■ Compact Design

eyc-tech air flow transmitter feature a compact form factor, making them easy to install in tight spaces or specific equipment locations.

#### ■ Easy Installation

Easily installed at the measurement point using simple accessories, without affecting normal fluid flow.
